Bi-Weekly Report as of February 7, 2003
FSA Performance Plan – FY2003

SUMMARY

COMPLETED

- The Office of the Inspector General and the auditors at Ernst and Young issued an unqualified opinion on the FY 2002 FSA financial statement. All audit-related corrective actions have been completed. In addition, all material weaknesses and reportable conditions on audits have been addressed. (6)

GREEN LIGHT

- The Project Team to implement Form 2000 enhancements is assembled and the team is working on a Business Justification to present to the IRB. (7)

- The decision not to recompete the Debt Management Collection System (DMCS) contract as a stand-alone was made. The re-engineering of DMCS will be rolled into the Common Services for Borrowers initiative. Work has begun for market research for an integrated solution for CSB. (8)

- The Business Justification for re-engineering EDExpress has been written and will be presented to the DSG/IPC in the very near future to request funding to study database solutions, migrated standalone modules to the Web and conduct a Product Registration survey. (21)

- The FSA Integration Group was formalized at the Management Council meeting on February 7, 2003. This completes milestone 15.2 and will contribute toward the achievement of Project 15 (Implement integrated project management oversight for FSA's system integration initiatives).

YELLOW LIGHT

- FSA is on GAO's most recent issue of its High Risk List. While FSA recently received a clean opinion for the FY 2002 financial statement, it was not timely enough to effect the 2003 High Risk designation. This item will remain yellow until FSA has assurance from GAO that they will provide FSA with an interim assessment. (2)

RED LIGHT

- Although the cross-functional team has been established for Project 16 (Define an enterprise-wide data strategy and high-level implementation approach that addresses the business flow of data across the enterprise, architecture, primary ownership, standards, management, access methods and quality) this project is reported as red. There is concern that the both the milestones and the project will not meet the designated deadlines.

Appendix A - Project Status Report

1 **CFO**   *Obtain a clean audit opinion on FSA's financial statements*

Green

2/11/2003	Both the Department and FSA received a clean opinion on the FY'02 audit. Multiple action plans and efforts will be put into place during FY'03 to improve our processes, analysis and reconciliations to enhance our probability of receiving a clean audit in FY'03.		100
2/11/2003	Corrective action plans for findings of material weaknesses and internal control issues are due in 60 days.		100
	First quarter financial statements are due to CFO Monday, February for review and analysis. These statements are due to OMB by February 15th.		
1/27/2003	Clean audit opinion was rendered on 1/27/03		100
1/10/2003	Currently working with OCFO to achieve clean audit opinion. Ernest & Young (auditors) has delivered the official draft reports to the Office of Inspector General (OIG) for review. OIG will deliver the official draft reports to OCFO/FSA January 10th. ED's consolidated written comments are due to OIG/E&Y by January 16th.		95
12/27/2002	Currently working with OCFO to achieve clean audit status		90

2 **COO**   *Develop and execute an FY03 plan to get off the GAO High Risk List*

Yellow

2/7/2003	FSA was on GAO's High Risk List for FY 2003, issued January 30, 2003, supported by work ending and ongoing through December 2002. In January, FSA received a clean opinion on its FY 2003 financial statement audit - thus the major obstacle for being removed from the GAO High Risk List has been overcome, although not timely enough to affect the January 2003 GAO High Risk designation. However, the FSA is requesting a reconsideration of the designation in FY 2003, in consideration of the clean audit, the plans for continued financial management improvement, and the commitment by management to address the issues, as demonstrated in the FSA and Department Annual Plans, the Department's Strategic Plan and other more detailed plans. This item will remain yellow until we have assurance that GAO will provide us with an interim assessment. It will turn red if GAO decides not to provide us with an interim assessment. At this time the COO of GAO knows that there will be a formal request and is open to discussing the request internally.		25
1/24/2003	Although the draft financial statement audit report indicates that FSA is going to receive a clean opinion (thus the major obstacle for getting off of the GAO High Risk List will have been overcome), until we have assurance that GAO will provide us with an interim assessment prior to the end of the fiscal year the project will remain yellow.		10

3   **CFO**   *Reconcile FSA accounts to Department's general ledger within 30 days after month-end close by 9/30/03*

7   Update plan monthly as necessary

Green   COO   **2/7/2003**   **33**

Issues list being updated based on FY 2003 Performance and Accountability Challenges and High-Risk Series Reports. Initial review indicates that plans and commitments by FSA to improve its planning and reporting processes; the clean financial statement audit; the Departments Enterprise Architecture framework and FSA's Consistent Data Framework; and the Department's human capital management plan will address outstanding issues - thus supporting a request for reconsideration of the SFA programs high risk designation, particularly in light of the recent clean opinion and the management commitment to invest in financial management and maintain the financial integrity of the Department's financial management systems.

GAO Relations - On 11/25/02, senior FSA and Department managers met with GAO to discuss the SFA programs High Risk Plan status, and provide information on why the designation should be removed. The High Risk Plan and other supporting documents and accomplishments were provided to GAO at that time, to be followed by a written request.   At a 12/10/02 GAO exit conference on Department Management Challenges, GAO managers stated that the SFA programs would be designated high risk in their January 2003 update.   The Department requested that if FSA gets a clean opinion on its FY 2002 financial statements that GAO review the SFA programs Performance Plan and accomplishments after 6/30/03 for consideration of a mid-year determination. Our request is currently under considered. The written document drafted as a result of the 11/25/02 meeting is being redrafted to reflect the results of this meeting.

OMB Relations - A meeting was held with OMB on 11/21/02 to discuss the first quarter's accomplishments on the President's Management Initiatives and Program Initiatives. Preliminary discussions with OMB on their first quarter 2003 draft report indicate that if the status grade for the Department's financial management initiative is raised that the High Risk status could also be raised as the accomplishments and plans to address issues are apparent.

Previously we asked for the end date to be pushed out to 6/30/02. However, the decision has been made to complete the project in-house, making the 3/31/02 end date satisfactory and upgrading the status to green (since we will not have to go through the contracting process).

Title IV Delivery has drafted a SOO for a short consulting contract to revisit handoffs, given the ripple effect of changes that accompanied the implementation of COD (including a new customer service unit in Niagara Falls, NY). A short list of local contractors who specialize in this area has been derived from the GSA Schedule. We expect to put the contract out for bid in mid-January.

The automated queueing (that will trigger calls to schools 60 days after drawdown if cash has not been substantiated) is currently in testing. This is reflected in the jump in Pct. Complete. However, a conscious decision has been made to defer implementation until release 2.0 (03-04) comes up, currently scheduled for April 7. Due to the deferral of this automated function, we are changing status to yellow. However, COD CSRs have been running weekly reports and calling schools that are 60 days out for the past couple of months (I.e., a manual process will continue to occur until the automated triggering replaces it).

GM, Schools, and COO still need to meet to finalize the charter and proposed list of members, as far we know. When that happens, Pct. Complete will go from 50 to 100%. We are showing status as yellow, not red, because the original core group (though not yet formalized as far as we know) continues to meet and make decisions.

Although the 16.2 planned Completion Date is 6/30/03, we have gone to yellow on this milestone. The Success Measure column includes a soft date of 12/31/02 for this milestone, it wasn't met, and we haven't heard that this has been addressed definitively. GM-Schools, and the new CIO have met together and with the COO, to try to ensure that the technology and business functions partner productively this year. However, this team is not set as far as we know, and that is holding up milestone activity under project 16.

The SOO to address the the overall data strategy document and activities under 16.2 including the mapping of business flows, data inventories, redundant data analysis and summary, and the completion of a target state assessment for business data integration is being formulated. Key mangers were contacted on Dec. 20, 2002 and all agreed to constitute the core cross-functional data strategy team. Additional membership was discussed and additional particpant names were suggested by the core team members. Due to holiday leave schedules, the first formal cross-functional team kick-off meeting is scheduled for Jan. 13, 2003. Additional membership will be solicited to help ensure enterprise representation for these cross-cutting efforts and key contractor personnel will be included in future meetings as appropropriate. The final development and content of the overall data strategy SOO will be addressed with the cross functional project team during meetings the week of Jan. 13. Achieving the target date of 1/31/03 is contigent on acquiring contract support in sufficient time for product delivery. The cross functional team must meet in order to finish planning for the XML milestones, for the following reasons:

- The scope is expanding from one system (COD) to the enterprise, increasing complexity and project risk and thus necessitating enterprise-wide planning.
- Because FSA is collaborating with the higher ed standard-setting bodies whose members (schools, servicers, GAs) hold student Title IV data in common with FSA and are on parallel XML development tracks, the team will need to check direction with those bodies to ensure sufficient alignment.
